V. **Meet Format and Scheduling**

- A. *Challenges:* John Darrow (Notre Dame) provided an overview of the challenges currently facing the SPL. This includes heavy reliance on volunteers to run successful meets and declining participation due to COVID and the rise of club sports.
- B. *Proposed Modifications:* To overcome waning participation and to reinvigorate SPL track meets, Jeremy Strayer (St. Francis Xavier) presented a proposal that shortens meet length and reduces the volunteer burden. This proposal includes moving to fully automated timing (FAT) and combining grade levels into one meet. To offset the cost of FAT, season length will be shortened from 5 to 4 meets. In this proposal, the league will eliminate one week of regular season meets and the Divisional meets. A relay meet will be added Week 4. This revised meet schedule allows teams the opportunity to participate in the IESA State Series, which has historically been held during the SPL Divisional and Championship meets. **Motion #2: (Darrow/Cudzilo)** Motion to shorten the season to four weeks, combine grade levels into one meet (5th through 8th grade), and adopt FAT timing. 23 in favor/0 opposed. Motion Carries.
- C. *Next Steps:* The Rules and Events Committees will meet jointly to review existing rules and events in the context of the new meet and season structure and will develop a proposal to be voted on by the League. The Rules and Events Committee meeting will be open to all SPL members. Details to follow.
